DETAILED ACTION

Election/Restrictions

Claims 10-24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected group, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 4.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, it is not clear if "some overhanging tracks" as recited in line 9 the same as the "number of track sections" recited in line 4.

Regarding claims 1, 3 and 4, there is lack of proper antecedent basis for the limitation "said central supporting structure".

Regarding claim 8 and 9, the claims are vague and indefinite because it is not clear as to what is meant by the phrase compatible and integrated with a general system of composable elements for the composition of static and dynamic structures described in the US Patent No. 6,315,628". It is not clear how the composable elements as described in US Patent No. 6,315,628 further structurally limit the claimed apparatus.

Art Unit: 3712

Allowable Subject Matter

Claims 1-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Eisenburg teaches a trackway for a trackborne toy. Williams teaches a toy. Rothbarth teaches a kinetic toy.
